

Steer through evolving markets with agility.

Launching

iSIF Equity Long-Short Fund

NFO Dates: 19 May, 2026 - 02 June, 2026

Ups and downs are part of markets. But during market declines, fear often takes over. This is where a long-short approach becomes relevant in evolving market conditions.

What is an Equity Long-Short category?

A dynamically managed equity strategy that seeks opportunities in different market conditions by investing across:

Sectors/
Themes

Market
Capitalizations

Styles

Derivative
Strategies

Presenting

iSIF Equity Long-Short Fund

(An open-ended equity investment strategy that invests in listed equity and equity related instruments including limited short exposure in equity through derivative instruments.)

Why consider this scheme?

Bottom-up stock selection

Focused on businesses with strong fundamentals, earnings visibility, and reasonable valuations.

Flexibility

The investment strategy can be flexible across sectors, styles, market caps depending on the attractiveness.

Risk Mitigation

May mitigate the risk associated with investing solely in large/ mid/ small caps or specific styles or sectors.

Market Cycles

The investment strategy may do well across different market cycles given the dynamic nature of the investment strategy.

Navigate equity markets with a strategy built for both sides, because opportunities are not just for rising markets.
